MARE NOSTRUM MERE FICTION FOR ITALIANS

Mighty Fleet Of 9 Powers Patrols the Mediterranean

Times Change

Atlantic City, N. J., Sept. 15—(AP)—Goodness, how things have changed!

Governor Olin D. Johnston, attending the annual governor's conference here, remarked last night that he never had a drink in his life.

And what did the Governor of North Carolina, Clyde R. Hoey, say to the Governor of South Carolina?

"I," said he, "never hit the bottle either."

RELIEF PROBLEM AGAIN PLAGUES HORNER, AIDES

Rome, Sept. 15—(AP)—Italy stood virtually alone on the Mediterranean today, confronted by an European pact that placed practically every other nation on that sea behind an Anglo-French anti-aircraft fleet of mighty proportion.

It was a bitter dose—to be told that rival powers would police every important lane of maritime commerce in what the Italians fondly describe as "our sea," leaving them only the Tyrrhenian to guard.

France and Britain proposed even to patrol the Tyrrhenian off Italy's western coast if Italy persisted in her somewhat qualified rejection of the invitation.

Italy last night informed the Paris and London governments that "the situation which would result seems unacceptable," making it impossible for Italy to accept "anything but absolute parity with whatever other nations in whatever of the Mediterranean."

The phrase "seems unacceptable" appears to leave the way open to compromise.

200 WARSHIPS READY

Paris, Sept. 15—(AP)—France and Great Britain have mobilized nearly 200 warships in the Mediterranean in their hunt for marine raiders.

Organized on a full war time footing, the combined fleet is reaching its maximum strength within a week when all additions ordered for patrol duty arrive.

Working in closest collaboration, commanders of the British and French warships have laid plans to shift the patrol fleet's weight quickly to any section where trouble might arise—thus backing with armed might the nine-power anti-piracy agreement reached at Nyon, Switzerland.

France has ordered a special fleet of 24 destroyers to the Mediterranean pirate hunt, and naval officers said the full French fleet in those waters would back the extraordinary patrol, if necessary.

London, Sept. 15—(AP)—Royal air force flying boats today were ordered into the nine-nation hunt for Mediterranean pirate submarines.

The government's decision to give "eyes" to Great Britain's warships on pirate patrol duty was reached so suddenly that the air ministry was unable to determine the exact number of aircraft that will be put into service.

Informed quarters believed available planes at Gibraltar would be assigned to aid the more than 90 British warships that Britain has assigned to Mediterranean duties.

France already has backed her fleet with plane detachments.

Health Officer Here Planning Free Clinic

Miss Maud Stone of the division of handicapped children, department of health, state department of public welfare, was in Dixon Tuesday conferring with Doctors S. P. Stackhouse, H. J. McCoy and J. M. Lund, relative to the free clinic for crippled children which will be held at the Dixon Elks' club Oct. 7. Drs. McCoy and Lund are respectively president and vice-president of the Lee County Medical society, and Dr. Stackhouse will be in charge of arrangements for the clinic, and will care for any handicapped children who have no personal physician and see that they are given an opportunity of benefitting from the clinic.

FDR for Fiorello

It is an open secret that Roosevelt is for the Little Flower. They long have been close friends, and La Guardia has backed Roosevelt on almost every New Deal issue. Secretly the President hopes he will win, not only in the present primaries, but in the November election.

However, he will not intervene to aid Fiorello.

Senator Copeland has opposed almost every recent move made by the Roosevelt administration. He was bitter against the Supreme Court bill, and openly renounced with Justice McReynolds, staunchest die-hard on the Court and the man who refused to stand in tribute to Roosevelt at two Gridiron club dinners.

Historical note — Hard-hitting Ferdinand Pecora, now New York Supreme Court judge, wanted to run against Copeland in the 1934 Democratic primaries. Much highlighted as a result of his Senate banking investigation, Pecora had the job clinched. All he needed was a little New Deal support.

But Farley and Roosevelt called him off, wouldn't let him run. That was the sole reason Copeland did back into office.

Tammany Death

Not many people realize how lean have been the pickings for Tammany during the New Deal.

Roosevelt, anxious to break up the Wigwam, has sent little patronage its way. And patronage is what Tammany lives on—patronage plus the fees turned into the Wigwam.

For instance, there were widespread rumors about the time Judge Crater mysteriously disappeared that the cost of getting a job as judge on the Supreme Court of New York required a contribution to Tammany. Usual amount \$75,000—the salary of the judge for three years.

Tammany money is used to buy Thanksgiving turkeys for forgotten men and to pay rent when the landlord is too insistent.

But with no money in the Tammany war chest, and with no jobs to dispense, many New York dis-

missed the county board of supervisors met in closed session as they assembled for the second day of the regular September meeting this morning and entered into a discussion relating to the increase of their per diem as provided by law which entitles supervisors to receive \$5 for each day of service, either on committee service or regular board sessions.

In 1932 when county officers, clerks in the various offices and court house employees accepted a reduction in salaries, several of which have been restored, while others are seeking restoration, the supervisors voted to reduce their per diem to \$4 per day to conserve

the county's resources during the depression. The supervisors' remuneration has continued at that figure up to the present time. At the closed session this morning, the subject was discussed and no definite action was to be taken until the individual members file their claims for mileage and per diem at the close of the session.

At yesterday afternoon's short session, the custodians at the court house filed with the board a request for the complete restoration of their salaries which were reduced in 1932 and the petition was referred to the fees and salaries committee to file a report with the board at this session.

JAPS, CHINESE CONSOLIDATE THEIR ARMIES

Feverishly Making Ready To Renew Their War

BY MORRIS J. HARRIS

Shanghai, Sept. 15—(AP)—Naval commanders of the United States and four other western powers demanded today that both Chinese and Japanese anti-aircraft gunners take immediate steps to spare the lives of "innocent non-combatants."

The urgent request of American Admiral Harry E. Yarnell and the other neutral naval commanders went forward while Chinese, in the face of wave after wave of Japanese attackers, stood fast on their new inland line stretching 20 miles from Chao-chou to Liuhu, north and west of international Shanghai.

Far to the north the whole might of 125,000 Japanese troops and their modern equipment was thrown into the long-bogged offensive against a 100-mile battle line. This campaign, aimed at subjugation of the rich provinces north of the Yellow river, holds the real military importance of the whole undeclared war.

On the altered Shanghai front it became apparent that the Chinese had been successful in three days of orderly withdrawal in establishing well prepared positions that have halted the Japanese advance inland from the main city.

Preparing Attack

But a Japanese army spokesman announced that his forces now were preparing a general attack on Chinese positions along the Tientsin-Pukow and Peiping-Hankow railways, the most important lines running from the Yangtze valley to the north.

Yarnell and the other foreign commanders repeated their strong warning to the Japanese and Chinese armies to cease the reckless firing over foreign warcraft in the harbor that is endangering not only the lives aboard the warships but the densely populated foreign settlements.

Among those attending the meeting besides the governor were Mayor Edward Kelly, Clayton F. Smith, president of the county board; Charles E. Miner, chairman of the Illinois works progress administration; Earl Smith, president of the Illinois Agricultural association; and B. C. Heacock, of Peoria, president of the Illinois Manufacturers' association.

Chairman Martin cited figures to show the seriousness of the relief problem.

Alarming Problem

"It is alarming and dismaying," he said, "that after five and one half years, \$440,000,000 has been spent in Illinois from state, federal and local funds for direct relief, and since 1935 a total of \$230,000,000 by the works progress administration, yet the Illinois relief problem is not diminishing. It is growing."

Governor Horner said that "continuing to throw money into the coffers is not the solution of the problem."

**Cattle Prices Are
Highest In Past
Seventeen Years**

Chicago, Sept. 15—(AP)—The price of cattle soared to \$19.10 per hundredweight today, the highest in 17 years.

A load of choice grain fed steers brought the top which was 20 cents above the previous high.

Not since January, 1920, when the cattle market top was \$19.25, has any price this high been paid in Chicago. Early in 1919 cattle sold up to \$21.50, which stands as an all-time peak.

Scarcity of choice grain fed cattle and comparatively high prices for all types of slaughtered beef and other meat animals formed the basis for the advance on cattle.

**Applicants For
Welfare Post To
Be Interviewed**

The judiciary committee of the board of supervisors today called all applicants for the position of superintendent of welfare for Lee county, to meet in the supervisors room at the court house Thursday morning at 9 o'clock for a conference. The committee planned to confer with the applicants before drafting a list of five candidates to be submitted to the state department of public welfare at Springfield, from which one is to be chosen for the position in Lee county at a salary said to amount to \$120 per month.

The list of applicants was read to the board as follows:

Henry C. Eissner, West Brooklyn; Florence L. Sheppard, May E. Thompson, William E. Gillan, Franklin Grove; A. G. Wasson, Louis E. Graves, Franklin Grove; M. N. Glenn Ashton; Frank W. Hewitt, Steward; Reuben J. Levan, Evard N. Bower, Vernon S. Hill, Clara Gwen Bardwell, Lucy K. Badger, Utley Noble, Jennie Long, Eleanor C. Curtin, O. H. Martin, Leona Orrt, Gretchen Finch, Ruth L. Franklin Grove Man Is Found Hanging in Barn; Third Suicide Recently

John E. Knouse, 63, Took Own Life in Despondency

John Edwin Knouse, aged 63 of Franklin Grove, suicided at his home in Franklin Grove yesterday afternoon, the body being found hanging in the hay mow of a barn at 2:30 o'clock by his wife and daughter, Mrs. Ethel Beegley. He was last seen about his home shortly after 1 o'clock. Missing him later Mrs. Knouse and daughter who was visiting at the home, went in search of him and going to the barn the wife discovered the body. Neighbors and Dr. F. M. Banker were summoned, the body was taken down and examination disclosed that death had taken place some time previous.

Dr. Kenyon B. Segner, coroner, was notified, and the body was ordered removed to the Hicks funeral home. A jury consisting of L. A. Trottnow, foreman, William F. Brown, J. E. Myers, George H. Fruitt, A. R. Hofmann and Wayne Bates conducted an inquest this morning at the residence. The verdict was that death was due to strangulation with suicidal intent while temporarily despondent.

It was reported that the deceased had made frequent threats upon his life and last Sunday threatened self-destruction to members of his family.

Was Prominent Farmer

Mr. Knouse was born at Altoona, Pa., June 9, 1874 and for several years had been a prosperous and prominent farmer in the vicinity of Franklin Grove. He is survived by his widow, Mrs. Vinna Gertrude Knouse to whom he was married Dec. 8, 1898; two daughters, Mrs. Bessie Elmer Wendle and Mrs. Ethel I. Beegley of Franklin Grove; and on son, George O. Knouse of Dixon. Two sisters, Mrs. Jennie Pitzer of Bendersville, Pa., Mrs. Ida Pitzer of Bigerville, Pa., and a brother, Mervin Knouse of Garders, Pa., also survive.

Funeral services will be conducted from the family residence Friday afternoon at 1 o'clock and at 1:30 from the Franklin Grove Brethren church with interment in the Emmett cemetery.

The death of Mr. Knouse by his own hand was the third death by hanging in Lee county during the past six weeks.

Carrier Pigeon Falls Exhausted At Gravel Plant

A homing pigeon suffering from an injured wing came to the ground at the Risley sand and gravel plant in the west end of the city yesterday afternoon. The bird was taken into the office where it was fed and watered and will be released to fly. On the left leg was a rubber band bearing the numerals, 769 and on the aluminum band on the right leg the bird bore the following registration: "Chi. 33362-AU 3707." The pigeon is thought to be one of several which were released in the far west a few days ago and is returning to its owner in Chicago.

The bitterest battle of the nineteen-year-old undeclared war was being developed. The Japanese reported almost instantaneous victories on both flanks and at the center of the 100 mile battle line.

25,000 JAPS STRIKE

Peiping, Sept. 15—(AP)—A Japanese army of 125,000 men struck at Chinese positions along the entire North China front today, from the hills 40 miles west of here to the Tientsin-Nanking railroad 60 miles to the east.

The bitterest battle of the nineteen-year-old undeclared war was being developed. The Japanese reported almost instantaneous victories on both flanks and at the center of the 100 mile battle line.

**Wm. H. Stevens of
Palmyra Died Today**

William H. Stevens, for many years a resident of Palmyra township passed away at 10:30 o'clock this morning at the Katherine Shaw Bethea hospital after a lingering illness, at the age of 87 years, 2 months and 22 days. Funeral arrangements and obituary notice will be published tomorrow.

The group talked over state business at their session today.

Father of Two Little Children Is Confessed Rapist of Choir Singer

Chicago, Sept. 15—(AP)—A 24 year old father of two children confessed police said today, the brutal rape and torture of Miss Anna Brasy, a choir singer. The crime stirred the city 10 months ago.

Chief of Detectives John L. Sullivan announced the confession was made by Robert Conroy and that he had been identified by Miss Brasy.

Former Amboyite Weds Colorado Man In Chicago

Miss Erma E. Brewer, oldest daughter of Mr. and Mrs. B. B. Brewer of Chicago and William L. Gunn, oldest son of Mr. and Mrs. W. B. Gunn of Pueblo, Colo., were united in marriage at four o'clock, Saturday afternoon, Sept. 11, at the United Church of Hyde Park. Dr. Douglas Horton performed a very impressive single ring ceremony. The church was beautifully decorated with palms and pink and white delphiniums and the service was by candlelight. Luigi Salvatore LaMonico, soloist, sang "Calm Is the Night" by Bohm and "Ich Liebe Dich," (I Love Thee), by Edward Greig before the wedding procession entered the church. Philip Manuci, who is a harpsichordist of Manuel and Williamson, radio artists, was the organist who played Mendelssohn's Wedding March as the groom and the best man entered the church from the left with the minister. The ushers then entered from the rear of the church followed by the bridesmaids and then by the matron of honor followed by the bride on the right arm of her father who gave her away.

The bride was attired in a wedding gown of white velvet with a redingote of white lace with a velvet train. She wore a short veil, white satin slippers carried a bouquet of white tea roses and gilding. She also carried a white lace handkerchief which was made and carried by her great aunt, Mrs. George Huyett. Mrs. George Nielsen, Mrs. Wilbur Schreiner and Mrs. Archie Klein. A leaflet, "Liza Jane," was given by Mrs. Guy Robinson. John Cadle gave a very clever demonstration on the baton, accompanied by Mrs. Otto Strock at the piano. A reading, "Let Your Light Shine," was given by Mrs. Glen Wisner and Miss Rilla Webster favored with two short readings. A negro spiritual, "Lord, I Want to Be a Christian," was sung by Miss Mary Martin. Mrs. George Nielsen gave another scripture verse and the meeting was closed with prayer.

Former Dixon Lady Moving Residence To Birmingham, Ala.

It is delightful news to the scores of friends of lovely Mrs. E. T. Schuler of Gadsden, that she contemplates returning to Birmingham shortly to live. During the time she lived here several years ago, Mrs. Schuler was one of the most popular women in society and her home was the rendezvous for many delightful coteries.

At intervals since she left here she has visited her son, Robert E. Schuler and his attractive wife, and society has thus kept in touch with this lovely lady, who will receive a most cordial welcome upon the occasion of her homecoming. The Birmingham Age-Herald.

Mrs. Schuler was formerly Miss Maude Eustace of Dixon and is a sister of Miss Ann Eustace. The Schuler family are moving from Gadsden, Ala., to Birmingham where Mr. Schuler has extensive business connections as have their sons Robert and Eustace Schuler.

Blind Musical Genius to Play in Dixon Oct. 21

Alec Templeton, the blind musical genius, who will appear in a concert here October 21, under the auspices of the Dixon Concert association, early showed evidences of his abilities. At the age of 2 his family was amazed to hear the little boy correctly mimic his older sisters' exercises on the piano, even including as a joke their frequent mistakes, one of which, a lullaby, his mother used to sing him to sleep. Fortunately his family encouraged the talents of the little fellow and placed him with the best teachers they could find. As a result at the age of 14 Alec won the first prize in composition offered by the British Broadcasting company.

He came to America as a solo pianist with Jack Hilton's orchestra in 1935, and immediately gained recognition, not only as a brilliant musical comedian, but as a musician of great attainment.

In the spring of 1936 he decided to give a Chicago recital, and quite against the judgment of "those who know" appeared at Orchestra Hall on the afternoon of March 1. This first appearance in the new role of concert pianist was a sensational success. His audience, many of whom came principally out of curiosity, was overwhelmed by the artistry and intellectual depth of his interpretations. They seemed to realize that in this blind boy the genius of Mozart had been reborn.

Although the first reaction of an audience is often one of pity for Mr. Templeton's affliction, a more unlikely subject for their pity is hard to imagine. Alice Templeton's happy smile and puckish sense of humor is constantly in evidence and dull moments are practically non-existent when he is within hearing distance. Intensely active, he has unbounded energy and can outwork, outwalk and out-talk most of his more fortunate brethren.

Explanations of his musical gifts it to acknowledge them and give thanks for another genius.

Mr. Templeton will appear in the first of three artist concerts in Dixon, tickets for which may be obtained from ticket solicitors who are calling on music lovers in Dixon or from Miss Frances Patrick at the Chamber of Commerce.

Women of Legion are Going to New York with the Boys

New York, Sept. 15—(AP)—The women of the American Legion—a thousand strong—are coming to town with the boys.

Not the members of the American Legion Auxiliary. To be sure, 60,000 of them will be here. But these are actual members of the Legion itself.

They are the women who attend the Legion meetings and help elect the Legion officers.

All of them saw actual service in the war. Many helped operate field and base hospitals in France. Others worked in the United States naval reserve stations on the Atlantic and Pacific coasts, serving as secretaries, bookkeepers, radio operators, payroll clerks and in other capacities, permitting the release of men in shore stations for duty at sea.

The American Legion women will attend two functions as a group, however.

Those functions are a reception and dinner Monday evening at the Hotel Biltmore and a tea Wednesday afternoon in the garden on top of the British Empire building in Rockefeller Center.

Guests at the dinner will include Mrs. Herbert H. Lehman, wife of the governor of New York; Mrs. Harry H. Woodring, wife of the Secretary of War; Mrs. Edith Nourse Rogers, member of the House of Representatives from Massachusetts; Mrs. Ogden Reid, Mrs. August Belmont, Dr. John H. Finley and others. Mrs. Reid, Mrs. Belmont and Dr. Finley will be the speakers.

At its annual meeting, which opened yesterday, the organization approved the purchase of a large warehouse and wholesale plant here for use as headquarters. Thirty local organizations throughout the state will be served from here in a cooperative supply program."

TROUBADETTES HAVE ORGANIZATION FOR 1937-38 SEASON

The Troubadettes held their organization meeting for 1937-38 at the home of Dr. and Mrs. Howard Edwards. A picnic supper was enjoyed and officers were elected as follows: Mrs. Howard Edwards, president; Mrs. B. R. Jacobson, secretary; Mrs. Arthur Schwarzer, treasurer; Mrs. E. M. Goodsell, director. Committees for contact, telephone, program and publicity were selected.

Upstreamer Class Held Penny Supper

The Upstreamers class of the First Christian church held their September meeting at the church September 9. A penny supper was served at 6:30 p.m. The hostesses were Sylvia Coakley, Minnie Wilson, Maude Reese, Esther Whitcombe and Elsie Peterson.

At 8 o'clock a business meeting was called to order by the president, Grace Walters. Thirty members answered to roll call. The opening song was "Count Your Blessings." The secretary's report was given and a good will offering was taken. Committees were then appointed for a Halloween party for October. The meeting was closed by all repeating the benediction.

MISSIONARY CIRCLE ST. PAUL'S CHURCH

Missionary Circle of St. Paul's Lutheran church will meet at 7:30 p.m. Thursday at the parsonage. Every member of the circle is requested to bring a guest.

DINNER PARTY

DAILY HEALTH

By Iago Galdston, M. D.

WORMS

Worms were not among the 10 plagues inflicted by Jehovah upon Pharaoh and the Egyptians. Possibly because they had been afflicted with them since time immemorial.

Certain it is that parasitic worms have plagued mankind for countless centuries. Folk medicine ascribes to worms numerous maladies from toothache to insanity. Time past no "wandering 'tooth' healer" but could draw "the worm" from an aching tooth—even if he had to supply one.

The Greek, Roman and Persian physicians have left to posterity their favorite worm remedies, and to their credit, be it said, not a few of these have stood the test of time and are employed in modern medicine in ridding the human (and animal) body of its worms.

Parasitic worms are of many types and varieties and infest numerous parts of the body. A number inhabit the gastro-intestinal tract; some the liver. The blood vessels the lymphatic system, and the lungs may be invaded by different types of worms (blood flukes, filarial worms, lung flukes).

In general, personal cleanliness and the hygienic safeguarding of food stuffs are efficient barriers against worm infestation. The Act was designed to dispel some of the shadows of insecurity. It is not a panacea for all of our social problems, nor is it a final measure; but it is, at least a beginning in the right direction.

"Only one part of the Act—the Old-Age Benefits" program, which went into operation January 1, 1937, could become effective without state action. In the other nine programs of Federal Legislation yet enacted in this country.

"In order to protect their rights to benefits under the Old-Age Benefits program over 30,000,000 wage earners in the United States have been issued Account Numbers and their records set up in Baltimore, Md."

Intention of Law

"The Old-Age Benefits, provided by the Act, are intended to insure the young, middle-aged, and the not-so-old of today, who are now at work or who will be working for pay in the years to come, that in their old age they will have a retirement income paid them by the Federal Government, as a matter of right."

The result of a heavy infection with hookworm is serious "blood poverty"—or anemia. In turn, this condition gives rise to the now well understood pictures of "laziness," retardation in physical development, emaciation, indigestion, etc.

The hookworm's life cycle, mode of infection, etc., have been studied thoroughly and efficient drugs have been developed for treatment. This conquest stands to the credit of American scientists.

THROWING FROM A GLASS HOUSE

Jay Franklin, who wrote under that name when his right one would have disclosed his official identification with the Tugwell wing of the New Deal, has the following to say concerning a list of democrats itemized by him:

"They don't seem to like being called 'rats.'

"By what name shall we call them?

"I am broad-minded and am willing to accept any less zoological term for these fellows. I shall even go so far as to offer a prize of one cancelled 3-cent stamp to the man or woman who can suggest the best print-able term for a democratic politician who runs for office on an all-out, 'Trust Roosevelt' New Deal platform, who stands by and lets Roosevelt's campaign speeches—including the famous Madison Square garden pledge, 'We have just begun to fight' pass without contradiction as true statements of the party's position, who accepts the majority votes cast for him in the belief that he is a supporter of the president and will help put through the promised program—and who then turns around and knifes the very reforms he pledged."

"Rats may be too strong a word for them, but what shall we call them?"

Well, we suggest that before calling them anything, we look around and see just how prevalent is this practice of turning around to knife "the very reforms he pledged."

There was a distinguished precedent set in 1932 by utterance of the following: "That admirable document, the platform which you have adopted is clear. I accept it one hundred percent."

There were men who were elected on the following pledge in 1932:

"We advocate an immediate and drastic reduction of governmental expenditures by abolishing useless commissions and offices, consolidating departments and bureaus, and eliminating extravagance to accomplish a saving of not less than 25 percent in the cost of federal government, and we call upon the democratic in the states to make a zealous effort to achieve a proportionate result."

After being elected on that promise to the people, they added more than a hundred new bureaus and agencies; instead of reducing expenditures 25 percent, added a debt of 20 billions of dollars; instead of calling on the states to reduce expenses and bureaus likewise, they bribed the states to erect new bureaus, departments, and agencies.

There were men in 1932 elected on the following pledge:

"We advocate strengthening and impartial enforcement of the anti-trust laws, to prevent monopoly and unfair trade practices."

One of their first acts after election was to suspend the anti-trust laws.

There were men in 1932 elected on the following pledge:

"We advocate the removal of government from all fields of private enterprise except where necessary to develop public works and natural resources in the common interest."

After election they plunged the government into the business of manufacture and distribution of power, and created government corporations that would authorize extension of the government into almost any known enterprise.

There were men in 1932 elected on the following pledge:

"We condemn the extravagance of the farm board, its disastrous action which made the government a speculator of farm products and the unsound policy of restricting agricultural products to the demands of domestic markets."

One of their first acts after election was to make the government a speculator in farm produce markets and to adopt as a policy the restriction of products to the demands of domestic markets. Later they passed a law providing that a man might be sent to jail if he produced more potatoes than the secretary of agriculture said he could.

There were men in 1932 elected on the following pledge:

"Continuous publicity of political contributions and expenditures; strengthening of the corrupt practices act and severe penalties for misappropriation of campaign funds. . . . We condemn the improper and excessive use of money in political activities."

After election they appropriated a fund of 5 billions of dollars as a blank check to the president to be expended under his direction on the eve of a presidential election. Then the deficit in the campaign fund was made up by selling the signature of President Roosevelt on a book at the rate of \$250 a book to corporations not permitted to contribute either directly or indirectly to campaign funds, the letter of solicitation advising the prospect: "The sale of the book enables us to legally accept corporation checks and in this way all of the companies who are assisting us are handling these expenditures."

There were men in 1932 elected on the following pledge:

"We advocate the full measure of justice and generosity for all war veterans who have suffered disability or disease caused by or resulting from actual service in time of war and for their dependents."

After election the president of the United States showed himself to be generous with public funds toward every other class except the veterans of wars.

On that record of pledges and fulfillment we should think there would be some timidity about affixing opprobrious names to gentlemen who have gone just as far as their consciences will let them in the direction of change of the form of government their oaths pledged them to uphold and support, regardless of what may have been said at Madison Square garden by a gentleman for whose utterances they were not responsible, in an address now reported to have been written by a gentleman named Corcoran, who was not elected by anybody.

GOPHERS TURN ON FULL STEAM IN PRACTICES

Thundering Herd Gores Sub Team 7 Touchdowns

Chicago, Sept. 15—(AP)—The rest of the Big Ten may as well start believing everything they have heard about Minnesota's 1937 gridiron power—unless there's a whale of a difference between Bernie Bierman's best and the stooge department.

Bierman turned his varsity hopes loose for the first time in practice yesterday and without delay, touchdown making was put on a high-speed production basis. Andy Uram, the Gophers' ace ball-carrier was left in long enough at left half-back to race off tackle for 70 yards and a touchdown.

Bill Matheny replaced Uram and before Bierman could get him out of there, he broke away for four touchdown jaunts, one on an 80-yard gallop, and another a 50-yard trip after catching a pass. Other varsity drives brought the touchdown total for the day to seven.

At Northwestern, Lynn Waldorf indicated he was just about set for a first string backfield, following another brilliant exhibition by Sophomore Jack Ryan. Jr. Ryan, a triple-threat operator, was moved to fullback, with three veterans, quarterback Fred Vanzo and halfbacks Don Heap and Bernard Jefferson at the other positions.

Isbell Throws Passes

Cecil Isbell threw passes with mid-season accuracy to Bill Vergane, Don Powell and Jim Zachary in an extended aerial scrimmage at Purdue, and Bill Anderson impressed Coach Bo McMillin of Indiana, as he worked with Corbett Davis, Frank Filcock and Swede Clasen in the Hoosier backfield. McMillin also had his eye on three sophomore linemen, Ralph Huff, James Logan and Bob Stevenson.

Coaches Bob Zuppke at Illinois, and Harry Kipke at Michigan, experimented with "double duty" ends. Zuppke called Ken Zimmerman back to help with the punting and passing. Kipke started figuring on a regular assignment for Elmer Gideon, originally ranked as a reserve flanker, to utilize his kicking ability.

A tentative Wisconsin varsity eleven which included three sophomores, gained consistently against a defensive lineup, both with running plays and passes. Ohio State's squad was given an offensive drill and Chicago's little squad worked on blocking and tackling in its first contact session.

Coach Elmer Layden had good and bad news from Notre Dame's casualty list. Tackle Denby Emmanuel, and fullback Ed Simonich, injured Monday, will be back in a day or two, but Jake Kovacik, a monogram winner at right half-back, may be out for two weeks.

Hank Leiber, Giants, and Bill Brubaker and Lloyd Waner, Pirates—Former's homer and single drove in four runs to lead way to 12-2 victory in opener; Brubaker and Waner combined for 6-2 defeat of Giants in nightcap.

Billy Rogel, Tigers—Clouted double and triple and drove home five runs in 11-6 trimming of Senators.

Ducky Medwick and Lonnie Warneke, Cardinals—Former's double scored winning run in fourteen-inning 9-8 opener victory over Phils; latter hurled 1-0 shutout in abbreviated second game.

Bill Dickey and Myril Hoag, Yankees—Bagged seven hits and drove in nine runs in 17-5 slaughter of Indians.

Roy Henshaw and Buck Marrow, Dodgers—Henshaw checked Reds' rally in ninth as Brooklyn took opened 4-2; Marrow made National league bow with six-hit, 11-2 win in nightcap.

John Lanning and Danny MacFayden, Bees—Former held Cubs to five hits, latter to seven as Boston swept twin bill 9-0 and 4-2.

Beau Bell, Browns—Cracked out two doubles and triple and batted in three runs in 11-3 triumph over Athletics.

A French patent was granted to Xavier Projean of Marseilles in 1883 for a device consisting of an assembly of bars with type each type striking downward upon a common center. This was the prototype of the modern typewriter.

AFRICA FARMS
TO STUDY THE
AMER. SOYBEAN

Urbana, Ill., Sept. 15.—(AP) Before many months, farmers living in the vicinity of Natal, South Africa, will have an opportunity to learn first hand something of American methods of growing soybeans.

M. C. Campbell, whose Scottish ancestors have farmed on the east coast of Africa for several generations, will carry back to that country the story of the rise of soybean culture in the fertile corn belt of Illinois.

Charles K. Willett went to Rock Island this morning on business for the day.

J. L. Gablehouse is out of town today, visiting friends at West Chicago.

Joe Miller, member of the fire department, has resumed his duties after his annual vacation.

Dr. E. S. Murphy and John H. Roberts spent today in Chicago on business.

Charles K. Willett went to Rock Island this morning on business for the day.

J. L. Gablehouse is out of town today, visiting friends at West Chicago.

City Clerk Wayne Smith is in Urbana today on business.

C. W. Bales of Amboy drove to Dixon Tuesday to trade in Dixon stores.

Frank Pfeifer of South Dixon township motored to Dixon Tuesday.

William Dickey and Galen Meyers leave tomorrow for Council, Ida., to spend the winter.

Mrs. Mary Deutsch is a medical patient at the Katherine Shaw Bethel hospital.

Lee Potts and sister, Mrs. John Foster, have returned home from Rochester, Minn., where they were called on account of the serious illness of a brother, Hurles Potts of Phoenix, Ariz., who submitted to the amputation of one of his legs.

William Dickey accompanied by Galen Myers left this morning by auto for Council Valley, Idaho, where the former owns an apple ranch. They will remain during the harvest from the orchards which give promise of a good yield.

Japanese Practice
Air Raid Defense

Here to learn more about soybeans, Campbell also has become interested in hybrid corn.

"It's about time to plant corn down home," he said when asked about agricultural conditions below the equator. "While farmers here are preparing to go into a winter season, the farmers down home are getting ready for the spring cropping season. I obtained some hybrid corn produced here in Illinois this year which I sent to South Africa to be planted within the next few weeks. That's what you would call taking rather unfair advantage of nature, isn't it?"

**Shade of Egg Yolks
Can be Controlled**

Tokyo, Sept. 15.—(AP)—Commanded by screaming sirens, two million Japanese tonight met a non-existent enemy in pitch darkness.

Japan was practicing air-raid defense in the largest and most realistic exercises in its history. It was the opening of a five-day program of maneuvers.

The entire Tokyo-Yokohama district and surrounding suburbs were plunged into total darkness. Even cigarettes were banned from streets. Taxis, trams and trains ran lightless. Funeral curtains shrouded windows.

The required drapes hung over windows in the Associated Press office, which was allotted two lights. These occasionally were cut off, necessitating work by candle light.

It was a 300 yen (about \$87) fine if a light was seen.

The air "raids" were announced hourly by sirens.

Firemen's associations staged noisy fire and gas drills on the streets throughout the district.

MOVE QUICKLY TO COMPEL EMBARGO ON ARMS EXPORT

May Intercept American Freighters on Way to China

Washington, Sept. 15 — (AP) — Maritime commission officials worked swiftly today to carry out a partial embargo ordered by President Roosevelt on arms shipments to China and Japan.

The full commission was summoned to a special session to consider whether it will intercept the American freighter Wichita, enroute from Baltimore to China, with a cargo of 19 airplanes, as the first application of the new rule.

The vessel, which sailed from Baltimore on August 27, was expected to reach San Pedro, Calif., during the day for refueling.

Mr. Roosevelt issued the arms ban late yesterday by forbidding 37 ships owned by the government but operated privately to transport munitions to the far eastern war zone.

All other American merchant vessels were cautioned that if they attempt to take such cargoes to the Orient, they do so at their own risk.

Most Drastic Step

The edict marked the most drastic step taken by the government in the undeclared Sino-Japanese war.

It was proclaimed after the President had conferred with Secretary Hull and Chairman Kennedy of the maritime commission. In the meanwhile, he had canvassed the general Far Eastern and European situations with his cabinet, hurriedly summoned to a special meeting a few hours after his return from an extended visit to his family home at Hyde Park, N.Y.

The President's statement emphasized that the neutrality act was not being invoked at this time, but that government policy in this respect was being kept "on a 24-hour basis."

The neutrality law, which the President must apply once he finds a state of war exists between nations, automatically would bar American munitions exports and financial aid to belligerents. It would permit the chief executive to forbid American ships to transport to the war zones any other commodities which he might designate.

Vessel's Orders Stand
(Officials of the Roosevelt steamship company of New York which acts as agent for the government-owned Wichita, indicated the vessel's orders to proceed to Manila and China would stand unless countermanded by the maritime commission.)

The Wichita is a 9,147 ton vessel built during the war. The Roosevelt company has operated her under a management contract for more than a year between North Atlantic ports and the Far East.

The airplanes aboard are consigned to the Chinese government. Both military and non-military planes are listed by the state department's munitions control board in the category of war implements.

Activities Among Students at D. H. S., Reported By One of Their Number Today

By "DASH" JR.

A farewell surprise party was held at the Bennett home on East Chamberlain street last Friday evening for John Bennett who has enrolled at the Marion Military Academy for the coming semester.

When a group of boys arrived at his residence and were quickly ushered into the kitchen by Johnnie's chawing sister, the irresistible "Duchess." After a while Johnnie was heard coming in the front door. He'd been getting an ice cream cone at the ice cream social next door. "O.K." says "Duchess," "let's go." Whereupon the boys rushed into the living room to the great surprise and joy of "Master Jack." After all this excitement was over the guys sat down to "bingo." Five games were played and the prize for each game was a flat 50 of cigarettes. Bob Hofmann won the first game; the next winner was "Bud" Wilson; the third game was won by Frank Deschbach, and the fourth by "Bud" Wilson again. Bob Hofmann won the fifth game also but being of an unselfish nature, Bob could not bear to go home with two prizes, so he put the last prize back up and when the sixth game was played "Scotty" Palmer was the lucky individual. Those who did not smoke sold their prizes. The first round of entertainment over, a card game was brought into action by "Dash" but this proved to be of little interest so it didn't last long. A game of Indian wrestling ensued between Bob Hofmann, Sam Mottar, "Master Jack," and "Dash." This went along until, during a contest between Sammy and "Dash," a vase was knocked off its stand. Of course, it was broken and the game ended abruptly at this point. Later in the evening refreshments were served and the party broke up shortly after this due to the fact that the football fellows had to go home and get to bed. A swell time was had by all, though, and "Master Jack" was wished the best of luck at Marion.

Dixon opens its 1937 football campaign against Rock Falls Saturday at Reynolds field. Let's have a little of that old school spirit this year and let's have a real crowd at the game. Truthfully, the Dixon rooters are down to a very low degree in the old "fight for alma mater." There is nothing that helps a team as much as a bunch of the home town fellows in the bleachers rooting their heads off for them. It gives them a certain "drive" that is not present when there is no such gang pulling for them.

Another change that is effective in Dixon high this year is the mixed home rooms. In all previous years there have been separate home rooms for boys and girls. This year, however, the boys and girls are all in the same rooms.

There was another change in Dixon high school this week. (Not a permanent one, though.) This change was the fact that Arnold "Gus" Swan wore a necktie for the first time in two years. This is really "somethin' new an' somethin' different" because, after all, two years is quite a while.

Another Dixon high school pupil is also going to a military academy. This gent is "Pedro" Potter and he is going to St. John's Military Academy. They say it is pretty tough up there and everyone is hoping that they won't get "Pedro" down, but then "Pedro" is a tough gent, isn't he, and he ought to be able to take it and give a little out, too.

Brother "Fat" on the other hand, evidently finds the environment around Dixon too pleasant to leave, and he is going to attend our fair institution.

A.C. Bowers is having quite a time keeping Don Carry quiet in physics class. Don has a tendency to answer all the questions whether he has been called on or not. Of course it is swell to be smart and know your lessons, but Mr. Bowers finds it very annoying when he asks Mary a question to hear Don pipe up with the answer. Quoting Mr. Bowers: "I'll have to button your lip up, Don." Don had better take it easy or he will be wearing a muzzle in physics class.

The trigonometry books are to be bought at the high school this year and as yet they have not arrived and when the students found that the books had not yet arrived they whooped it up (privately) because they were under the impression that with no books there would be no assignments. On the first day of school, however, their shortlived joy was ended. After everyone was settled in their respective seats Miss West, the "trig" teacher, said, "Well, there is one nice thing about trigonometry, and that is that you don't have to have books to carry on your studies." A number of groans were heard throughout the room as Miss West went on to give the

and who will cheerlead this year also when he is not competing in one sport or another. Anyons who would like to try out for this position may speak either to him or to Mr. Bowers, the athletic director. There will undoubtedly be three cheer leaders as there were last year. It makes no difference what class you are in in school (you have to be in high school, of course). If you want to lead the cheers for good old Dixon High during the next year, you will be given a chance to "show your stuff." This does not necessarily mean that you will be given the job, but if you are one of the three best candidates, you will be. It is hoped that there are some applicants before Saturday so that Dixon will have someone to lead the cheers against Rock Falls.

Florence Stiles, a graduate of Dixon High in 1937, returned to Dixon Sunday after having spent three weeks in Sandwich. While she was visiting there, however, she received employment in her father's dress shop and she is going to go to Sandwich before the end of the week (if I am not mistaken) where she will remain permanently. "Floss" was very active during her four years in our school, was the hit of the senior play and was the hit of the senior play this year. Her many friends will miss her a great deal, and it is hoped that she will visit Dixon once in a while.

It is understood that Bob Perry, '37, who has been working in Casper, Wyo., in which town his uncle resides, is going to return to Dixon in the very near future where he will vacation for about three weeks. Bob ran for police magistrate when the high school pupils elected the officers of Dixon for a day, and though he was defeated by "Mickey" McMillion, he put up a very good fight and received a large number of votes.

Jack Gannon is coming along very nicely at the Katherine Shaw Bethel hospital, where he is recovering from a fracture of the leg, received in an accident which occurred while he was riding a "putter." A lot of the fellows have been up to see him and have learned he will not be able to leave the hospital for about four weeks. He will then be removed to his home on East Third street where he will remain for a period of about two weeks. At the end of this time it is expected that he will be able to return to school. Being absent for so long will be very much of a load on Jack when he returns, but it is hoped that he will recover quickly and that everything will turn out O.K. for him.

The first week of school has passed and things are getting down to the old routine. The confusion that predominated during the first few days is gradually dying away. Many had to have changes in their schedules, but most of these have been taken care of (thanks to the efficiency of Mr. Frazer) and this year is beginning to be like every other school year. The freshmen, however, are having quite a time becoming accustomed to the methods in the high school. It is all a sort of a grand new experience for them just as it has always been for freshmen. It is not an uncommon sight to see a freshman peeking behind a door to see what room it is—even after a whole week. They will probably continue to do this for quite a while yet because such are these poor, green unfortunates.
